DOMINO design AL Studio

Sempre alla ricerca della qualità assoluta in ogni singolo dettaglio, anche in quelli apparentemente più nascosti, antoniolupi propone un sistema di divisori per cassetti che associa la massima funzionalità, all'eccellenza dei materiali e delle lavorazioni tipiche di ogni prodotto dell'azienda. Chiamati a svolgere un ruolo sempre più importante nella gestione dello spazio interno, questi accessori testimoniano la costante tensione verso la bellezza sotto ogni aspetto. Il progetto prevede due moduli che combinati tra loro, formano più composizioni divisorie ortogonali, così da garantire la massima personalizzazione, in base alle esigenze di contenimento. Anche in questi accessori, la qualità assoluta di una materia ricca di storia e la sofisticata contemporaneità della finitura in noce canaletto, incontrano il linguaggio minimale delle collezioni di mobili e contenitori, per dar vita a un interno ricco di fascino e di eleganza. Interni da mostrare, da svelare, da portare a testimonianza di stile, cultura e passione.

Always looking for the highest quality in every detail even in the most seemingly hidden. Antonioluti proposes a dividing system for drawers that combines maximum functionality to the excellence of materials and processes typical of each product of the company. Called upon to play an increasingly important role in the management of the internal space, these accessories testify to the constant tension towards beauty in every aspect. The project includes two modules that combined between them form more perpendicular divider compositions, so as to ensure the maximum customization according to each need. Even in these accessories the absolute quality of a material rich in history and the contemporary sophistication of the finish in noce canaletto are suitable for the furniture collections to create an interior full of charm and elegance. Interior to show, to reveal, to demonstrate style, culture and passion.

cassetti H 9 cm
drawers H 9 cm

antoniolupi ha scelto per garantire la qualità e la durata dei suoi divisori per cassetti, un materiale innovativo, l'HPL, un laminato ad alta pressione dello spessore di 5 mm, costituito da numerosi strati di carta impregnati con resine termoindurenti e compattati attraverso l'azione combinata del calore e della pressione. Un prodotto stabile e omogeneo, non poroso e di alta densità, con caratteristiche fisiche e chimiche del tutto diverse dai suoi elementi costitutivi. Questo straordinario materiale è stato poi impiallacciato in noce canaletto con finitura ad olio naturale. Gli accessori sovrapponibili sono invece realizzati in alluminio dello spessore di 2 mm, per poi essere rifiniti con vernici a polveri epossidica.

antoniolupi chose to guarantee quality and durability of its drawer accessories with an innovative material, HPL, a high pressure laminate 5 mm thick, consisting of many layers of paper saturated with thermosetting resins and compacted through the combined action of heat and pressure. A stable and homogeneous, non-porous and high density product, with physical and chemical characteristics quite different from its components. This extraordinary material was then veneered in walnut with a natural oil finish. The overlapping accessories are made of aluminum 2 mm thick, then finished with epoxy powder paints.

La misura reale del cassetto vuoto è data dalla larghezza meno 7,6 cm.
Es. cassetto cm L 72 cm - misura del vuoto 64,4 cm.

*The actual size of the empty drawer is the length less 7,6 cm.
For example drawer measures L 72 cm - the usable empty space is 64,4 cm.*

STRATO design AL Studio

La cura dei dettagli, la coerenza estetica e progettuale, il senso del bello sotto ogni aspetto, anche in quello che può apparire secondario o poco visibile. antoniolupi esprime la propria attitudine a un total look sofisticato ed elegante anche all'interno di mobili, cassetti e contenitori. Uno spazio importante, fondamentale, per il quale è necessaria un'organizzazione funzionale, ma anche un territorio spesso sconosciuto, da esplorare e mostrare senza timore. Il sistema di attrezzature per cassetti Strato è l'essenza dell'eleganza che si esprime in un accessorio indispensabile non solo per il corretto svolgimento di semplici azioni quotidiane ma anche per definire l'immagine complessiva dell'arredo. Divisori eleganti e resistenti, realizzati in cristallo fumè e disponibili in diverse dimensioni, per cassetti Slim. Partizioni che permettono di razionalizzare lo spazio ma anche di conferire identità e stile all'interno dei cassetti. "Dio è nel dettaglio" diceva Mies van der Rohe. Per antoniolupi lo è anche in ciò che non sempre si vede.

The attention to detail, consistency and aesthetic design, the sense of beauty in every respect, even in what may seem secondary or inconspicuous. antoniolupi expresses its own attitude with a total sophisticated and elegant look also inside the furniture, drawers and containers. An important area, vital, for which you need functional organization, an unexplored territory to show without fear. The internal drawer accessories Strato are the essence of elegance that is expressed in an essential accessory not only for the proper performance of simple daily actions but also to define the overall image of the cabinet. Elegant and resistant dividers made of smoked glass and available in different sizes, for Slim drawers. Partitions that allow you to rationalize space but also to confer identity and style inside the drawers.

"God is in the details" Mies van der Rohe would say. For antoniolupi it's important also in things that aren't visible.
