# Frieze

by Marcante-Testa

Inspired by “*entablatures*” series by Roy Lichtenstein, the project is articulated through different levels of signs, materials and colours where the washbasin stars as central element of the bathroom. The architectural approach of the designers involves the entire spatial dimension of the bathroom: the position of the sink is defined by a central band, available in different materials and colours, creating space to install mirrors, shelves, furniture and towel hooks.

# Nouveau

by Bernhardt & Vella

Freely inspired by the Art Déco of early 20th century, Nouveau collection - featuring washbasins, containers, mirrors and accessories - gets richer in 2020 with new elements: a bathtub and a shower system.

**“We’ve translated a serene and discreet elegance into purity, balance of lines and shapes, lightness and airiness. Probably our more feminine side turning into a sweet, soft, but also contemporary and pragmatic sign”**

Founded in 2008 by German designer Ellen Bernhardt and Italian interior designer Paola Vella, Bernhardt-Vella is an interior design studio based in Milan.

Their starting point is research as a maieutic process. Taking inspiration from the art world, the masters of the past and architecture, they create their distinguishable and always personal style.

# Nouveau Bathtub

by Bernhardt & Vella

Nouveau bathtub shows the same sinuous and geometric lines of the entire collection. Of small size and circular shape, it includes a detail that, just like in the washbasins, is both decorative and functional. Thanks to this element it is possible to place objects or install the taps, allowing the bath to be set on the wall as well as centerpiece of the room.

Along with the basins, the bathtub is made in Livingtec®, a solid surface featuring high technical performances and pleasant to the touch, available in matt white or blush pink; a delicate and refined shade still inspired by the beginning of the last century.

# Nouveau Shower

by Bernhardt & Vella

51

The Nouveau shower system has a strong personality.

Like other elements of the collection, it is a contemporary and essential interpretation of the Art Déco, featuring clear and asymmetrical geometries as main details. Transforming contrasts into harmony, the system combines the visual lightness of glass and refined colours with the sharp lines of the frame.
